1 Sergeant Major, 3 Constables, 30 Ward Officers, 4 House
Officers, 6 Criminal Officers, 102 Watchmen.

REGULATIONS.

The Sergeant Major and two Constables, with ten Officers,
attend at the Office, previous to the Watchmen being sent to their
Stations. These Officers thereafter patrol the Streets, observe if
the Watchmen are doing their duty, apprehend vagrants, suspi-
cious and disorderly persons, and report lamps not burning, in
order that they may be immediately lighted by a lamp-lighter,
who remains in the Guard-House, during the night, for that pur-

pose. After 12 o'clock, they commence taking up the tickets from the Watchmen, that they received when going to their Stations, which they deliver to the Constable on duty, at 2 o'clock; they again visit the Watchmen, and after 3 o'clock deliver them check-tickets, which they return to the Constable in the morning, on arriving from their Stations. The other twenty Officers that were in bed all night, attend in the morning, at 6 o'clock, from the 1st of March till the 1st of November, and at 7 o'clock, from the 1st of November till the 1st of March, to patrol the Streets, till 9 o'clock, inspecting their Wards, and observing that the Pavements are properly cleaned. A regular report of the whole is entered in a book, by the Constable of the night, for the inspection of the Master of Police, in the morning, and the Commissioners at the Weekly Board, as also a report of all delinquents brought before the sitting Magistrate, at 10 o'clock, forenoon.

A Constable, and twenty Officers, attend at the Office, every morning at 10 o'clock. Four of these Officers remain in charge of the Office, and the other sixteen are stationed in different districts of the city, and continue on their respective Stations, until relieved by the night Watchmen.

The Watchmen go to their Stations at 9 o'clock at night, during the whole year, and continue till 5 in the morning, in the months of May, June, July, and August; till 6, in the months of March, April, September, and October; and till 7, in the months of November, December, January, and February. The whole draw up in line in the centre of the street, opposite their respective stations, immediately before calling the hour and half-hour, in order to ascertain, at one glance, that every man is at his post.

The funds, for defraying the expense, are raised part from the town, and from the yearly rent of subjects, rented or valued at £4 and under £6, sterling, yearly, 4d. per pound, sterling.—At £6, and under £10, 6d. per pound.—£10, and under £15, 9d. per pound.—£15, and upwards, 1s. per pound.

*Billeting Soldiers.*

Soldiers on the recruiting service and not lodged in the Barracks are billeted on the inhabitants in regular rotation, with the following exceptions, viz. Parish Ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and unmarried Ladies not in business, and who do not keep lodgers and paupers; and no Inhabitant to have Soldiers billeted on them a second time till the whole are gone over.

Occupiers of houses at L.3 and under L.5 yearly rent, two men for any number of days under a week—at L.5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

When it is inconvenient to furnish Soldiers with a bed, it has been usual in lieu thereof to pay 3s. a week for two men, and 2s. to sergeants, payable weekly at the option of the Inhabitant.

Government allows a return of 9d. per week, and one penny for each odd night for each Soldier. The Billet master attends from 11 to 3 o'clock, on the 28th of each month, (when it does not fall on Sunday,) and the two following days, to pay the Government allowance.

The case of a sergeant, who charged 8s. for a billet of two weeks upon an inhabitant, was brought before the sitting Magistrate, who, after hearing both parties, and examining witnesses, ordered the soldier to refund the overcharge, and communicate this circumstance to his comrades; and decerned that 1s. 6d. per week is a sufficient sum in lieu of a bed; but, as the soldier is put to some trouble to provide a bed for himself, he should be allowed 6d. additional, making a sum of 2s. per week; and if at any future time a higher charge is made, it shall not be allowed to pass unnoticed.—*Glasgow Herald*, 23d Dec. 1822.

A case similar to the above, was tried in the Justice of Peace court, when a sergeant made a charge of 3s. per week, for one man, for a bed, which the inhabitant resisted as being too much; the Justices adhering to a decision of the Magistrates in December, 1822, decided, that 2s. per week, was the proper sum to be paid to one man in lieu of a bed.—*Glasgow Chronicle*, 17th June, 1824.

The foregoing Table is calculated for the Broomielaw, on the supposition that the tides are influenced only by the action of the sun and moon. It will, therefore, be necessary when using it, to remember that in rivers, like the Clyde, the regularity of the tides is much interrupted by heavy rains, as well as by high winds, the former producing what are called floods or freshes, the latter altering both the height of the tide and the time of high water.

Heavy rains affect the hour of full tide in a very inconsiderable degree, but a strong gale from the North-West, North or North-East, not only prevents the tide from rising so high as usual, but causes high water to happen sometimes above half an hour earlier than what is stated in the table; while, on the other hand, if the gale be from the South-East, South or South-West, the tide will be as much later, and probably from twelve to eighteen inches higher than the average.

In order to make this Table useful at the watering places down the Clyde, the difference between their hour of high water and that of the Broomielaw, is given.
